As our namesake song says, we bring back the great country, roots, and rock songs that you won't hear on your normal radio, from the likes of Mike Plume, Nathan, NQ Arbuckle, and Serena Ryder. T-Bar and Mudge have been steering the ship since 2003, playing great music, laughing and telling stories (some of them even true).

[www.steelbeltedradio.com](http://www.steelbeltedradio.com)

Both shows specialize in great new music, all the gig info you need, and talking to the people behind the songs we love. We've interviewed folks like James McMurtry, Brandi Carlile, Kathleen Edwards, and Calexico, and we've hosted exclusive live performances from the likes of Hayes Carll, Paul Kelly, Martin Sexton, and Josh Ritter. Both shows are available on demand in podcast format, absolutely free, through the iTunes store and at [www.tellthebandtogohome.com](http://www.tellthebandtogohome.com).

# TwangTrust

Both Kinds of Music on **CKUW** 95.9 FM

The TwangTrust started life as an "alt.country" show, but there's not much that matters that you won't hear on this Wednesday evening institution. It's a country music show, as long as you're willing to accept that Hank Williams got his start at CBGB's and the Grand Ol' Opry is somewhere off of Route 9 on the Jersey Turnpike.

We could just play 2 hours of great roots-rockin' tracks one after the other, and if you tune in casually you might think that's what we do. But if you pay close attention, you're gonna learn something. About the music - its history, its fables, its place in the world right now. About the musicians - the legends, the cult heroes and the unjustly obscure. About your local scene - what's going on and where you need to be.

What will you hear on the TwangTrust? Our regulars include the likes of Steve Earle (our namesake), Bruce Springsteen (and most anyone who covers him), Johnny Cash, Roger Miller, every conceivable permutation of Winnipeg's great Hatcher brothers (The Fuse, The Six, The Big Beat & The Blue Shadows). Plus high & lonesome troubadors, R&B giants, Tex-Mex, blues & grass.

Besides designing gig posters, hosting legendary house concerts and threatening to egg Bruce's tour bus, your ol' pal Stu has been bringing you both kinds of music for 13 years now. It's about time you tuned in.
